Pineapple is run by Tony Burrin, who has over thirty years' experience in the hospitality industry - initially in wine bar, restaurant and event management and then as Head of Hospitality for the British Council in London. He has been selling and developing wine accessories for the last ten years.

### Why Pineapple...?

The pineapple was introduced to Europe by Columbus following his second voyage to the Americas in 1493.

It was used to decorate banqueting tables and became known as the symbol of hospitality.

It can still be seen carved in stone or wood above the gateposts and fireplaces of stately homes.

**As the symbol of conviviality and good cheer the pineapple seems an appropriate name for a wine tasting equipment company!**

### The small print....
